## West of Scotland Meeting for Teachers of Chemistry 2022

**Online meeting, MS Teams, Thursday 13<sup>th</sup> January 2022, 4-5pm**

**Practical CLPL session (TBC), May/June 2022**

### Introduction

The West of Scotland meeting for Teachers of Chemistry normally runs in January each year, with a significant component of hands-on lab chemistry. We continue to experience significant disruption to in-person activities, so we have scheduled an online gathering to be held in the interim. The meeting will consist of a mixture of short talks and discussion sessions and is free to attend. Recordings of the meeting will be sent to delegates afterwards.

### Running Order

***4pm: Welcome and opening remarks***

**4:10pm: Dr Alastair Wark (University of Strathclyde):** *Practical CLPL at Strathclyde: past, present, and future*

**4:25pm: Ms Rebecca Bugden (University of Strathclyde):** *Perspectives of a PGDE teacher in training*

**4:40pm: Dr Rebecca Beveridge (University of Strathclyde):** *Characterising protein complexes and conformations with native mass spectrometry*

***4:55pm: Closing remarks, Q&A***

### Joining instructions

The meeting is being held on Microsoft Teams, to accommodate for any potential restrictions to other video-conferencing platforms on school networks. The meeting can be joined by using the following details:
